

NEWSLETTER OF THE SOCIETY OF AMERICAN MILITARY ENGINEERS SPACE COAST POST

Remembering Tom Gorczynski

One of the first members of the SAME Space Coast Post was recently remembered and honored at our September Space Coast Chapter Meeting.

Thomas Gorczynski was an architect at heart and in practice. Born in New York, NY, Tom worked in a variety of positions in Montana, Arizona, and Florida, leading to Project Management at Allen Engineering in Cocoa Beach, FL. Tom's work garnered him a wide breadth of project experience with the U.S. Air Force, NASA, University of Montana, Florida educational facilities, and several hospitals and hotels. His love of his profession was reflected in his work as the Scholarship Chairman for the Space Coast Post of the Society of American Military Engineers. With Tom's leadership, hundreds of thousands of dollars were awarded to Brevard County high school graduating seniors admitted to engineering and architecture programs throughout the nation.

In honor of Tom Gorczynski's training and career, one of the scholarships given by the SAME Space Coast Chapter will give preference to high school seniors admitted to a nationally accredited school of Architecture. If no architecture school applicants have applied, the scholarship will be open to high school seniors admitted to a nationally accredited engineering program.
