Membership in the Society of American Military Engineers is open to persons and organizations with an interest in military engineering and a desire to increase the engineering potential of the United States for national security and to further the objectives of SAME.
MISSION
To provide education and support to the engineering components of the military and uniformed services and other federal, state and local government agencies responsible for the nation’s infrastructure, and to advance the partnership between government and the architecture, engineering and construction industry in the interest of national security.

VISION
To be a premier global engineering organization advancing the professional and personal growth of its members, the military and public sector engineering community, and the architecture, engineering and construction industry.

VALUES
- **Integrity.** Unwavering commitment to always do what is right, regardless of consequences.
- **Patriotism.** Support our national ideals and take pride in our country.
- **Public Service.** Recognize the critical contribution that public servants play in supporting the economic and environmental needs of the nation.
- **National Security.** Recognize the dedication of our National Security team comprised of uniform services, civil service and contractors in defending freedom.
- **Technical Competence.** Deliver high quality solutions.
- **Excellence.** Strive for the highest standards of performance in all actions, both personal and professional.
- **Environmental Stewardship.** Preserve, protect, conserve and restore our national resources through sustainable practices.
